STRATEGICALLY LOCATED in the middle of the Telecom Corridor, which is home to hundreds of high-tech companies, the UT Dallas Computer Science Department is in the midst of a growth phase that includes addition of new programs in cyber security, information assurance, data sciences and interactive computing, hiring of a large number of new faculty, and a steep increase in external research funding.

CORE AREAS OF COMPUTER SCIENCE RESEARCH:
Research activities in the UT Dallas Computer Science Department include a wide spectrum of investigations funded by federal and state governments and industry. Several institutes, housing a number of centers and dozens of laboratories, carry out research in the following areas:

- Algorithms
- Artificial Intelligence
- Automata and Formal Languages
- Bioinformatics
- Cloud Computing
- Combinatorial Optimization
- Computational Complexity
- Computational Geometry
- Computational Logic
- Computer Graphics
- Computer Networks
- Computer Vision
- Cryptography
- Cyber Security
- Data Sciences
- Databases
- Distributed Systems and Algorithms
- Embedded and Real-Time Software
- Graph Models
- Informational Retrieval
- Intelligent Systems
- Internet of Things
- Machine Learning
- Multi-Agent Systems
- Multimedia Systems
- Natural Language Processing
- Networking and Telecommunications
- Pattern Recognition / Image Processing
- Programming Languages and Systems
- Simulation and Modeling
- Software Engineering
- Software Maintenance
- Software Verification and Testing
- Virtual Reality

Full-time Computer Science Faculty
86

Computer Science Research Expenditures (2016)
$8.57 Million

Computer Science Enrollment (2017)
Bachelor of Science: 2,400
Master of Science: 1,000
PhD: 150

Computer Science Degrees Granted (2016-17)
Bachelor of Science: 285
Master of Science: 449
PhD Awarded: 23

PhD Tracks
- Computer Systems
- Data Science
- Information Assurance / Cyber Security
- Intelligent Systems
- Interactive Computing
- Networks & Telecom
- Software Engineering
- Computing Theory
FINANCIAL ASSISTANCE
Graduate assistantships feature a full tuition waiver and a stipend starting at $1,850/month and increasing to $2,150/month. Other opportunities include Jonsson School Distinguished Graduate Research Fellowships, the Computer Security and Information Assurance Scholarship for Service Program Fellowships, teaching assistantships and research assistantships. MS students on track to a PhD are also fully supported. Exceptional candidates are awarded a research excellence scholarship over and above the GA stipend.

ADDITIONAL FACTS
• CS faculty includes fifteen NSF CAREER award holders and three US Air Force Young Investigators.
• Ranked 29th internationally in the CACM Publication rankings for Computer Science graduate programs, 24th internationally for Software Engineering graduate programs.
• Received more than $45 Million in new research grants in the last 5 years. Ranked 37th nationally in research expenditure.*
• Ranked fourth in the nation among all CS departments in number of BS, MS and PhD computer science graduates produced.*
• Ranked third in the nation among all CS departments in number of women MS computer science graduates produced.*
• Ranked second in the nation among CS departments within Engineering Schools in number of women faculty.*
• One of the largest internship programs in the country with more than 700 interns placed in the most recent academic year.
• Ranked 21st in the nation in 2014 LinkedIn ranking of best schools for software developers.
• CS alumni have started many successful companies.
• CS. Dept. ranked #8 in NLP, and #9 in Software Engineering at CSrankings.org ('07-'18 period).
